

**Do you know  
about TBE?**

A hiker with a blue backpack and a red tent in a grassy field.

**You can catch TBE  
(tick-borne encephalitis)  
from infected ticks, found  
in wooded or grassy  
habitats in many parts of  
Europe and Asia.**

***Vaccination can  
protect you!***

A blue arrow pointing from the text to a tick on a green leaf.

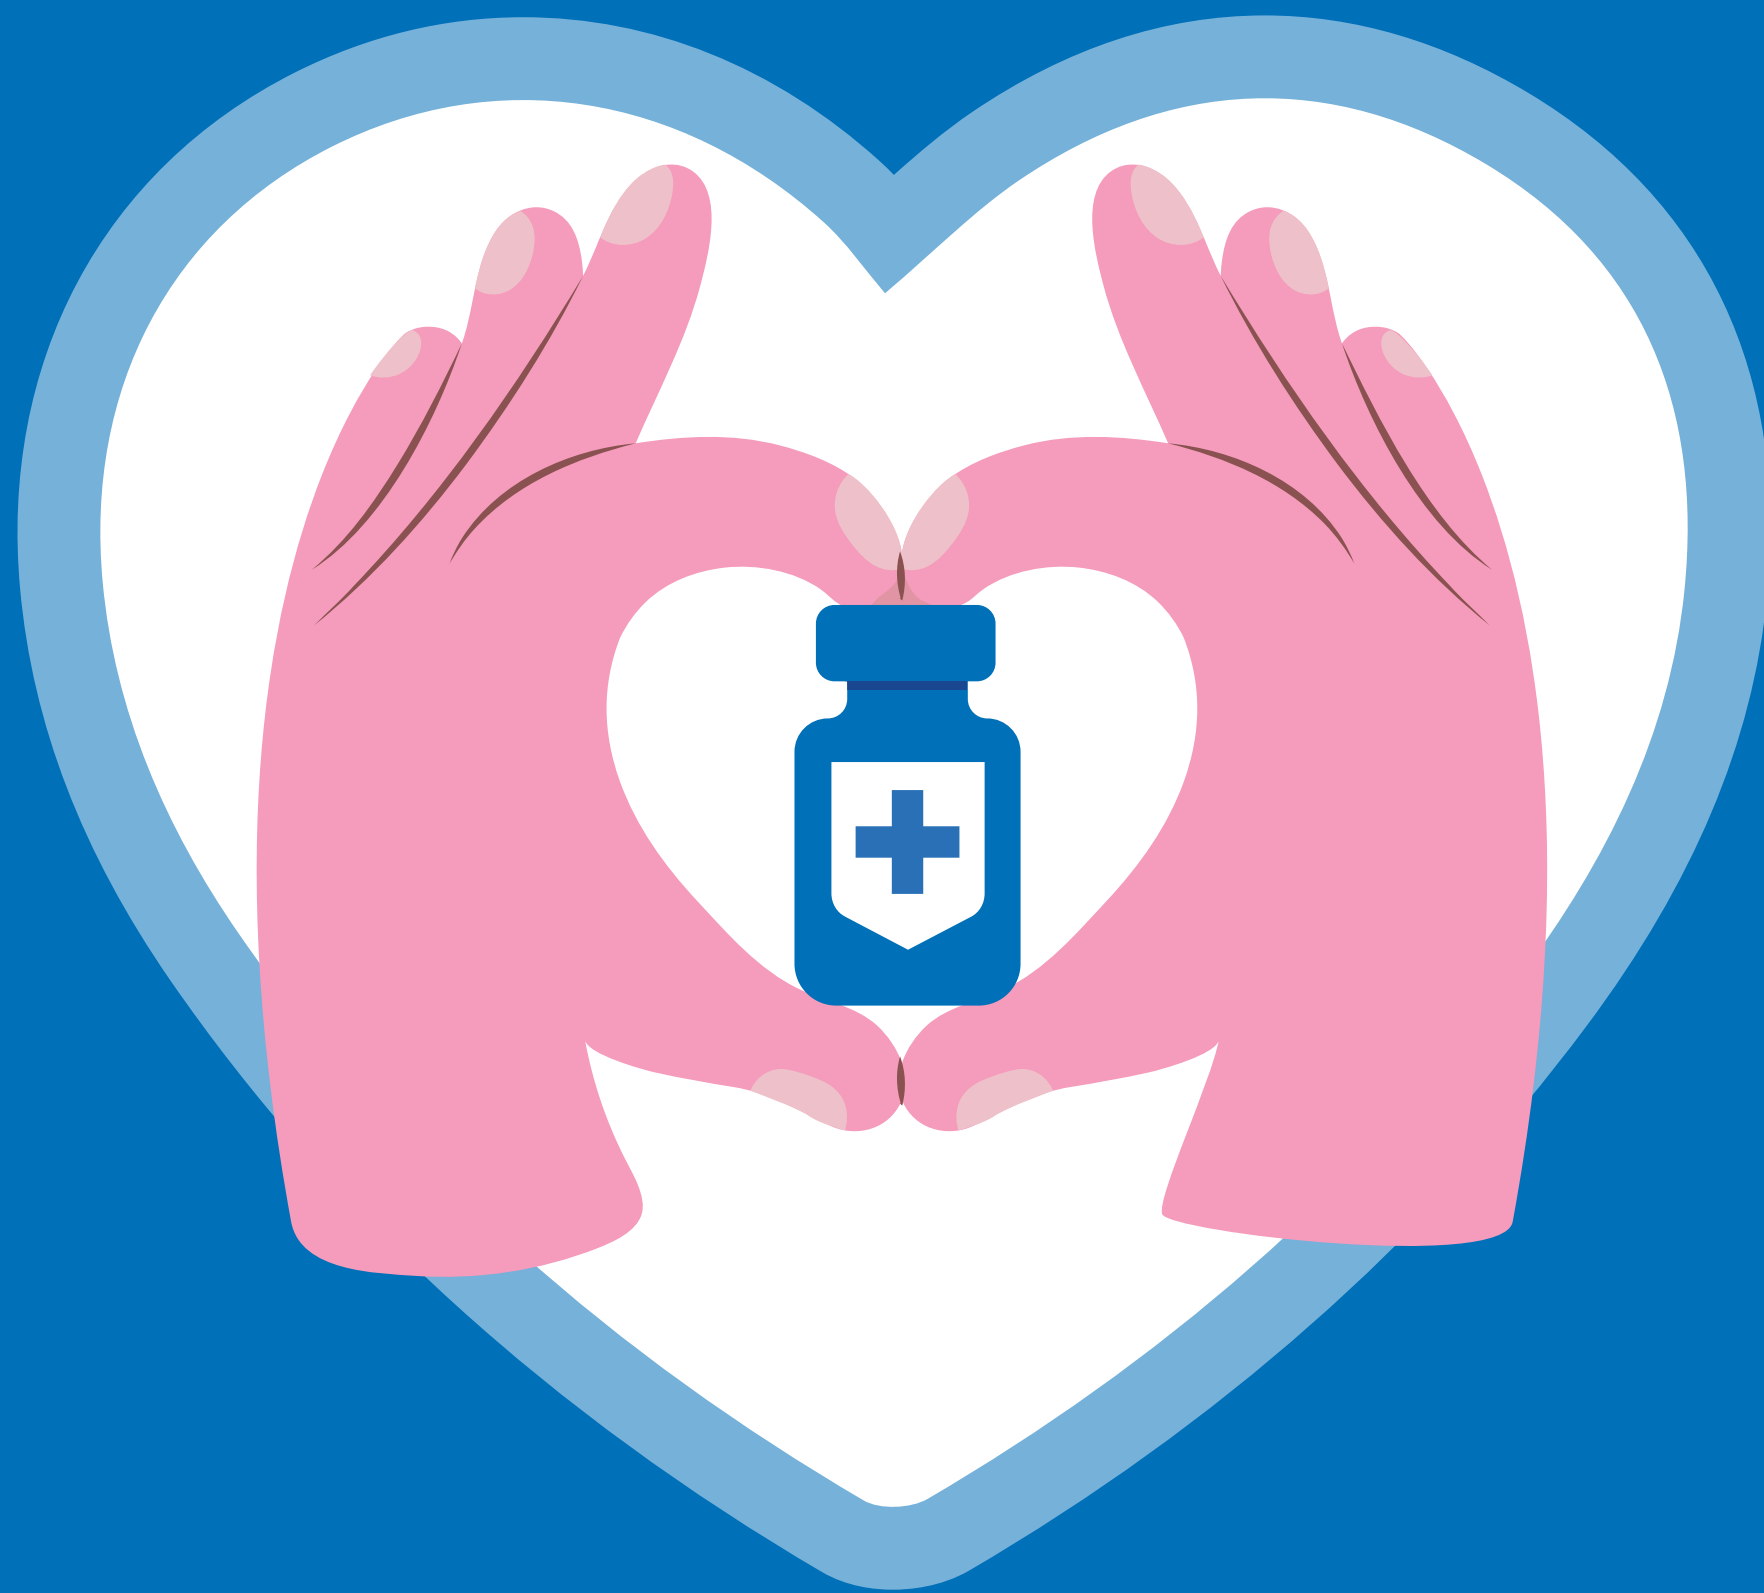

Repellents help keep ticks away, but vaccination is the most effective way to prevent infection with TBE.

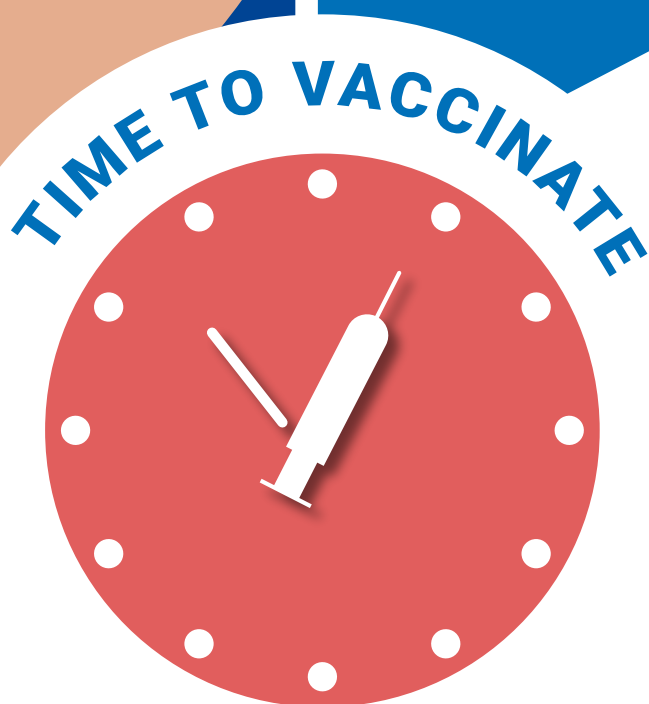

*How effective?*

**The TBE vaccine is highly  
effective in protecting  
from severe  
consequences!**
